

Creative calendar for your 2027

This calendar is a simple way to bring a little more creativity into your everyday life and capture the small moments along the way.

It includes 12 monthly pages (one month per A4 sheet) and a printable sheet of 80 hand-drawn stickers. Each square is a little space for a quick drawing, a note, a sticker, a keepsake, or anything you'd like to remember. There's no right or wrong way to fill it.

How to start and keep going

Start on any day of the year — there's no need to wait for the perfect moment. Use the stickers to make the habit more flexible. On busy days, when you don't have the time or energy to draw, you can simply add a sticker or write a word.

And if you skip a few days (or weeks), that's completely fine. You don't need to catch up. Just pick up where you left off.

Printing and storing

You can print the calendar at home or at a print shop. I recommend using slightly thicker paper to make the pages more durable.

The sticker sheet can be printed on regular or sticker paper. Each icon appears once, but you can print the sheet as many times as you like. You can also experiment with colored paper for a different look.

At the end of the year, you can bind all the monthly pages together at the top to create a little keepsake of your year. There's extra space provided for that.

✨ ABOUT THE AUTHOR

Hi, I'm Julia — a designer and illustrator who loves simple, analogue creativity and finding realistic ways to make art part of everyday life. I share sketchbooks, drawing ideas, cozy videos, and small creative projects on YouTube and Instagram. You can find me as **@juliazass** on both platforms.

Your support helps me keep creating free creative tools like this calendar. Thank you for being here!
